TITLE: Barricades

DEPARTMENT: MANAGING DIRECTOR'S OFFICE-CAPITAL PROGRAM OFFICE
ADMINISTRATION

DATE TO OPEN: June 10, 2015 at 10:30 AM

ADDENDUM # **2**

TO ALL BIDDERS:
You are hereby notified of the following changes to the above mentioned bid:

The bid opening will be postponed to June 17, 2015 at 10:30 AM

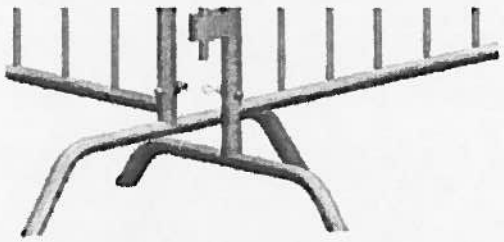
Please see the following **Questions** and **Answers** for Bid **#S6MD0010**:

Q1. Is there a specific diameter or tube thickness for the steel barricades?

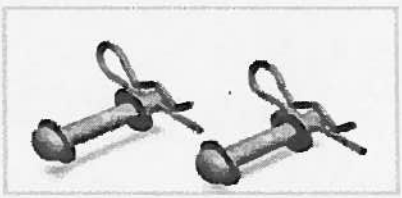
A1. Frame Tubes = 1.5" – 2" diameter; Upright Tubes = .5" diameter.

Q2. Should the feet be fixed or removable? There are two styles – one is just bent so it can never be removed others have feel that disconnect. Our standard model utilizes a quick cotter pin which requires no tools. Do they want this or a less expensive bolt and nut?

A2. Feet should be fixed/non-removable.



No tools required to install or remove feet: easily connect with quick pin and bolt



Q3. Do they want the features we have built into our standard model. Two main features are the sign panel and lifting handle behind the sign panel (these make the cost a little higher so I would remove if they are not required).

A3. Sign panel and associated lifting handle are not required.

Welded sign panel with ergonomic handle:

- 13" x 6.5" surface offers optional branding and messaging space
- Additional bar beneath sign panel provides a comfortable and safe carrying handle

Q4. They requested "Galvanized Stainless Steel". I have never heard of this since Stainless Steel is naturally resistant to rusting. I think they mean "galvanized steel" can you confirm.

A4. We are requesting that the barricades be made of "galvanized steel" and stainless steel in color (no paint).

Q5. Normally on bridged feet we have one large and one small foot in order to allow angles without the feet interfering. Do they want this or do they want the feet to match?

A5. Yes, bridged feet should be such to allow for unhindered interlocking, as is standard.

Bridged feet provide additional stability on uneven surfaces and in large crowds.

Each set of bridged feet includes one high and one low foot, which allow the units to create right angles without lifting one leg end off the ground.

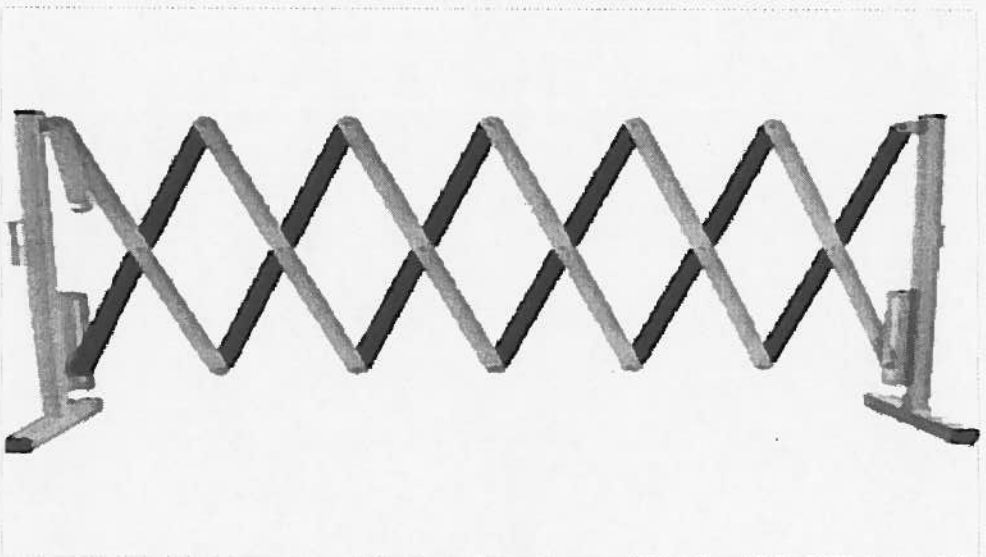
Q6. For the steel barricade jackets – do they want any printing or just plain black?

A6. Plain black, no printing.

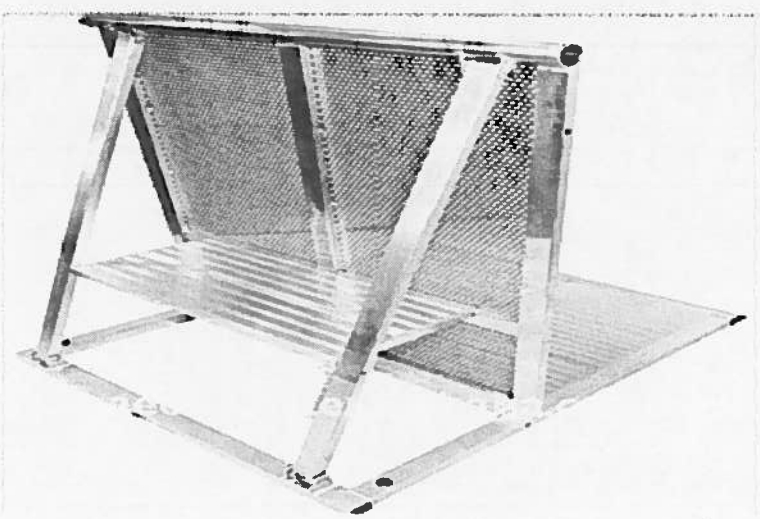
Q7. Items 3 and 4. Please provide a basis of design, manufacturer/ model number.

A7. Please see attached images for Items 3 & 4. This is the basis of design. Sample manufacturers and models included in attachment.

Item #3
Manufacturer: Northern Tool & Equipment
Model: EXGATE-30
http://www.northerntool.com/shop/tools/product_200408790_200408790?utm_source=CSE&utm_medium=Google&utm_campaign=Safety%20%3E%20Traffic%20Control%20%2B%20Signs&utm_content=856452&ci_src=17588969&ci_sku=856452&gclid=CjwKEAjwkcWrBRDg5u6SuPS11C0SJAChLLAHZes4usnUO9Y9Jk4bp8FlceeM_7gKyZ4PxzYNtSzFQBoC_a3w_wcB
FOR REFERENCE ONLY



Item #4
Manufacturer: Stage Right
Model Number: CC-550
http://www.stageright.com/content/accessories/product_sheets/CC%20500%20Barricade%20OneSheet.pdf
FOR REFERENCE ONLY



Q8. In regards to the barrier jackets; Is there a specified material thickness? Any messaging? Dual sided, single sided etc…

A8. Barrier jackets have no specified material thickness. No messaging (plain, black in color.

Q9. Due to the size, weight and quantity of the products/barricades specified, shipping costs and delivery logistics will be critical. Please provide details/time lines as to when the city will take delivery/deliveries of the products.

A9. Delivery specifications will be indicated on the purchase order. Awarded vendor will be notified of delivery locations and milestones. We anticipate final delivery of all items no later than September 1st, 2015, but this date is neither final nor binding.

Q10. Will qualified alternates/substitutes be accepted?

A10. Qualified manufacturer and model alternates/substitutes will be accepted, provided that each item meets the criteria set forth in the Invitation and Bid as well as all related Addendums/Amendments

Please sign, date and return this addendum with your bid to the Procurement Department, 1401 J.F.K Boulevard, Bid Room 170A, Philadelphia, PA 19102-1685 as it now becomes a part of the proposal.
