Hugh Ortman
Procurement Commissioner

October 18, 2013

BID NUMBER: S4YC4920
TITLE: MOBILE RADAR SPEED DISPLAY SIGNS
DEPARTMENT: Streets
DATE TO OPEN: Monday, October 28, 2013 at 10:30 AM

ADDENDUM #1

TO ALL BIDDERS:

Please review the following questions and answers pertaining to the above reference bid.

1. Question:

What are the end-users' expectations regarding Wireless Communications?

1. Answer:

For communications, the Streets Department is requesting a USB port link for laptops and WiFi. The WiFi should have an on/off switch so it can be turned off to reduce battery draw. The department is also requesting an encrypted eight (8) character password which should be included to reduce chance of hacking. The speed of wireless connection is 900 MBPS.

2. Question:

Does the "Data Collection" need to be uploaded remotely via wireless communication? We can include Bluetooth connection to our radar signs to access the data. Would this meet specification?

2. Answer:

No it would not. Refer to answer to Question 1.

Please sign, date and return this addendum with your bid to the Procurement Department, 1401 J.F.K Boulevard, Bid Room 170A, Philadelphia, PA 19102-1685 as it now becomes a part of the proposal.
