TO ALL BIDDERS:

You are hereby notified of the following changes to the above mentioned bid:

Questions and Answers:

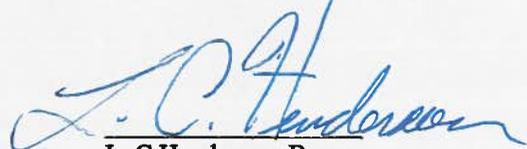

Question 1: In reading the specs for the above mentioned bid, item 5.1 has many issues that need clarification or revision. Can you assist please?

- For starters, the city has not listed a minimum sheet count per roll. They also left out the required number of rolls per case. This is essential to the spec to put all bidders on an equal playing field.
- The "Average Roll Length Minimum" is 4500" but the "Length per Roll" is between 4325" and 4425". These 2 are the same thing but yet they contradict each other.

Answer 1:

- Bidders shall refer to Commercial Item Description A-A-697D for Item 5.1. A minimum sheet count per roll is not listed for this item. Per Commercial Item Description A-A-697D Level A Packaging consists of ninety-six (96) rolls of toilet paper.
- The Average Roll Length is a minimum of 4,500". However, in order to be in compliance with the City's specifications & requirements the toilet tissue bid upon shall have a Length per Roll minimum which falls between the following ranges: 4,325" – 4,425".
