### **ADDENDUM # 2**

**TO ALL BIDDERS:**

**You are hereby notified of the following changes to the above mentioned bid:**

Please note the City's responses to the vendor questions below.

**Question 1.** Please provide ANY REASON the City or End-User would not accept these gloves in a different color. Why on earth would this end-user prefer white over steel blue given the application?

**Answer 1.** The Philadelphia Fire Department has another nitrile glove used by firefighters that is blue. The Accelerator Free Glove being bid out is for Paramedics and EMTs. The color is to help to differentiate.

**Question 2.** Why were the size 3X gloves previously sent to the City untested?

**Answer 2.** All gloves submitted for consideration were tested.

**Question 3** Vendor was told the end-user has never ordered size 3X and curious why it is now suddenly a requirement.

**Answer 3.** The Fire Department has ordered 3X in the past. It is not a heavily used item and it is possible that the manufacturer now has not made 3X but the previous manufacturer has made 3X gloves.

Question 4. Please explain the following language "copied & pasted" from the PH&S website/specification as PSG and the manufacturer are confused

Lot Control < 900,000 gloves  
Batch Control < 40,000  
Sampling Plan ANSI / ASQ Z1.4-2008  
RezTak No Stick Surface

Answer 4. This is the City's specifications for Accelerator Free Nitrile Emergency Medical Gloves.

**NO MORE QUESTIONS SHALL BE ENTERTAINED AT THIS TIME**
