Procurement Commissioner

April 15, 2016

BID NUMBER: S7YT1280
TITLE: Five Year Test, Inspection, and Certification of Fire Aerial Apparatus
DEPARTMENT: OFFICE OF FLEET MANAGEMENT-SHOP OPERATIONS
DATE TO OPEN: May 18, 2016 at 10:30 AM

ADDENDUM # 1

TO ALL BIDDERS:

You are hereby notified of the following changes to the above mentioned bid:

Please see the following vendor question and answer:

1. When is the testing conducted; all at one time? What month do you start? Do we test 1 apparatus a day for 2 months until they are all done? It says in section 2.3 that the supervisor makes an appointment with the testing company and it must be done within 5 days. I would just like it explained to me how the scheduling works, my company is located in Wisconsin and it doesn't make sense to do 1 apparatus a week. Any feedback would be appreciated.

Answer- We do not test the entire ladder fleet at the same time, we alternate the testing so that each one has a five year certification. So yes, the awarded vendor may only be doing one or two trucks at a time. Testing is done at our Front & Hunting Park location. The shop supervisor will work with the awarded vendor in scheduling the tests. In the case of damage from an accident, the truck is sent out to a repair vendor. In these cases the re-certification is handled as part of the repair.

Please sign, date and return this addendum with your bid to the Procurement Department,
1401 J.F.K Boulevard, Bid Room 170A, Philadelphia, PA 19102-1685 as it now becomes
a part of the proposal.
